UCF | CREOL, The College of Optics and Photonics

Senior Design I Lab Access and Permission Number Request

Senior Design courses subject the students to an environment unlike the majority of their previous curriculum. You will encounter aspects of engineering design not found in prior coursework. You will be responsible for your own learning as a team. In other classes, you are given homework, quizzes, labs, and tests in a structured and scheduled manner, but in Senior Design it is the team's responsibility to schedule your project, assign responsibilities, build the functioning device or system that meets specifications, and document the team's efforts in written reports.

Prior to obtaining a permission number to enroll in Senior Design I, please review the following:

- ☐ *Begin now to find ECE students who will form your team.*
  A team is typically made up of one to two PSE students and two to three ECE students. Teams are a size of three to four students.

- ☐ *Each non-PSE student in your senior design group who wants access to A210 will need to complete this form.*

- ☐ *Begin to think of project.*
  Meet with the senior design instructor to discuss the idea. *You need to initiate this meeting.* The project should have significant photonics technologies. It doesn't have to be a new idea. It just needs to be a new idea to you.

- ☐ *Request Electronic key card access for A210, the Senior Design Lab.*
  University regulations require that there must be two people present in the Senior Design Lab at all times.

- ☐ *Lab Safety Training*
  Prior to obtaining a access, you must complete the Laser Safety Course: http://www.ehs.ucf.edu/Training. You likely completed this in OSE 4052L so check Webcourses.

- ☐ *Provide a copy of your UCF Student ID for Building Access*

- ☐ *All of your supplies must be cleared out of A210 within 7 days after the Senior Design II Exhibition.*

REQUEST PERMISSION NUMBER and EMAIL TO MIKE MCKEE mmckee@creol.ucf.edu:

_____	_____	_____
PRINT NAME	UCF ID	DATE
_____	_____	
SIGNATURE	UCF EMAIL	

Term of Senior Design 1 Enrollment
- ☐ **Fall**
- ☐ **Summer**
- ☐ **Spring**

FOR ACCESS TO CREOL A210, SENIOR DESIGN LAB COMPLETE THE FOLLOWING AND EMAIL TO MIKE MCKEE mmckee@creol.ucf.edu:		
THIS FORM SIGNED	*A SCREEN SHOT SHOWING COMPLETION OF EHS 309, LASER SAFETY*	*A COPY OF YOUR UCF ID*
