Important Notes

- * AMH 2010 is under consideration as a Civic Literacy Course, pending approval by Florida Board of Governors.
- 36 credit hours are required to satisfy the UCF General Education Program.
- Consider Gordon Rule Writing (GRW) & State Core Requirements (♦) for GEP 6.
- Consult your academic success coach and the UCF Undergraduate Catalog for major-specific course requirements and acceptable course substitutes.
- Course descriptions are available in the UCF Undergraduate Catalog.
- Some classes are not offered every semester. Check myUCF for schedule.

UCF's General Education Program provides you with a **cohesive, integrative learning experience**. You will complete courses in five program areas, each with its own set of learning outcomes, that will enable you to plan, connect, and reflect as you move through your foundational classes. Our integrative general education experience allows you to **relate the knowledge and skills you are learning across academic disciplines, connect foundational ways of knowing to your major, and integrate those skills in new problem-solving contexts** – all to prepare you for your academic, civic and professional worlds.

Your academic success coach can assist you with identifying and selecting courses that meet state and UCF requirements, are a good fit for your intended major, spark your interest, and provide you with a diverse range of experiences and a broad basis for your education. Additional information concerning the General Education Program, degree-specific requirements, and course descriptions can be found in the [UCF Undergraduate Catalog](#). As you work through this integrated set of courses you will have the opportunity to make connections, learn skills, and build a strong foundation for your education and your future as a citizen and a professional.

KNOWLEDGE APPLICATION

Understand scientific methods and connect and apply them to challenges facing society.

COMMUNICATION

Become successful writers, speakers and producers of digital materials in their academic, civic, and professional worlds.

CULTURAL INTERACTIONS

Understand common human themes, have an awareness of diverse cultures, and understand the cultural, historical, economic, and social implications of what they learn.

INTERPRETATION AND EVALUATION

Assess and decipher information in a world full of conflicting sources.

PROBLEM SOLVING

Be well-informed citizens who can reason and apply analytical, statistical, and computational methods to the challenges of a globally-diverse and technologically-rich environment.
